| | 239 | 327 | 8 | 19 | 593 | 2 | 20 |

Measles follows a two yearly cycle and this has been a "high measles" year.

The 16 cases of Scarlet Fever compare favourably with the 28 notified last year, and the 62 notified the previous year.

Immunisation.

186 children under the age of five years and 125 over the age of five years received a full course of primary immunisation against diphtheria. In addition 21 children received a reinforcing injection.

A special immunisation session was held at Albert Street Clinic, Featherstone, on the first Thursday of each month; and the annual comb-out of the schools was carried out by Dr. Duncan as in former years.

TUBERCULOSIS.

The following Table summarises particulars contained in the Register of Tuberculous persons.

For domiciliary confinements the full establishment of staff has operated during the year, comprising three midwives, assisted where necessary by a relief midwife operating from Pontefract. All have cars.

Gas and air analgesia was freely used and appreciated by the patients, as was the analgesic drug pethidine which has proved a most useful weapon in the fight for painless childbirth.

Care of the Premature Infant.

Sixteen premature infants were notified during the year. In each case a special investigation was made and help given as required. In hospital cases there was close liaison between hospitals and authorities.

P A R T F O U R

SCHOOL MEDICAL SERVICES.

Routine school medical inspections were carried out in the Featherstone schools during the year.

A clinic session for consultation with the School Medical Officer was held on the first and third Monday in the month at which parents could attend. These clinics are of special value in dealing with the debilitated child. The average attendance for this session was 26.

Cases requiring consultation with a specialist, that is to say orthopaedic cases, ear, nose and throat cases, and eye cases were referred to the appropriate clinics at Pontefract and dealt with there.

Minor Ailment Clinics, in the charge of the school nurse, were held daily for one hour. An average of 6 children per day attended these sessions.

Mrs. N. Hepworth, Speech Therapist, held regular Speech Clinics at Featherstone.

P A R T F I V E

HOME NURSING.

The Home Nursing Service has been operated throughout the year by two nurses and a relief nurse. Over 200 cases have been nursed and 7,806 visits made.

P A R T S I X

CARE AND AFTER-CARE.

Much good work has been done under this heading during the year. A Health Visitor from the Featherstone area commenced attending at the Ackton Hospital and a Health Visitor from Pontefract has visited the Pontefract General Infirmary daily. They have been able on the one hand to furnish background histories of patients where such information was of importance, and on the other hand to give early information of the discharge of patients from hospital whom the personal health services might assist.

Home Helps.

The demand for this service has been maintained.

P A R T S E V E N

MENTAL HEALTH.

Mental health is a responsibility of a Sub-Committee of the County Council. Work under the Lunacy and Mental Treatment Acts, 1890 and 1930, has been undertaken by a Duly Authorised Officer living in Pontefract. He is Mr. R.S.H. Battye, of 27 Grove Lea Crescent, Pontefract, telephone number Pontefract 813.

We have one Mental Deficiency Social Worker, Miss E.T. Simons, for work under the Mental Deficiency Acts.

P A R T E I G H T.

AMBULANCE SERVICES.

The Ambulance Service in Featherstone is now operated by the County Council, and its administration is the responsibility of the County Ambulance Officer.

URBAN SANITARY DISTRICT OF

FEATHERSTONE

ANNUAL REPORT

of the

SANITARY INSPECTOR

for the

YEAR ENDED 31st DECEMBER, 1951.

To the Chairman and Members of the Council:

LADIES AND GENTLEMEN,

I beg to present to you my Annual Report for the year 1951, the Twenty-Fifth I have had the honour of placing before you.

SANITARY CIRCUMSTANCES

WATER SUPPLY: The water supply, which is purchased in bulk from Wakefield Corporation Waterworks and distributed via 2 storage reservoirs has been satisfactory in quality throughout the year. The supply has been constant, but the pressure in the higher parts of the district is steadily deteriorating. The new water tower is now approaching completion and this should provide adequate pressure to all parts of the district.

All the houses in your area are connected to the public main.

SANITARY ACCOMMODATION AND DRAINAGE

During the year, 14 privy closets were converted to water closets and 2 additional water closets provided for old property. 70 water closets were provided for new property.

At the end of the year there were:-

3960 Water Closets

31 Waste Water Closets

26 Pail Closets

126 Privy Closets

All the built-up areas of the district are sewered with the exception of the Wood Lane area where the houses are drained to cesspools, and cesspools are used at several isolated houses throughout the district. The total number of cesspools in use is 61 and these are regularly emptied by means of a mechanical cesspool emptier.

The two sewage works have given satisfactory service during the year.

Scavenging is done by direct labour and has been satisfactorily carried out during the year.

The estimated weight of refuse collected was 9,173 tons. Of this quantity 9,101 tons were disposed of by tipping and 72 tons recovered as salvage.

Salvage of materials of further use and for which an economic market could be found was carried out during the year, and the following materials were salvaged and sold:-

| Tons. | Cwts. | Qrs. | Lbs. | | £. | s. | d. |
|-------|-------|------|------|---------------|--------|-----|-----|
| 44. | 6. | 2. | 22. | Waste Paper | 616. | 2. | 10. |
| 19. | 9. | 0. | 0. | Kitchen Waste | 56. | 15. | 0. |
| 5. | 15. | 0. | 0. | Heavy Scrap | 20. | 14. | 0. |
| 2. | 8. | 0. | 0. | Light Scrap | 3. | 8. | 0. |
| 5. | 2. | 0. | 0. | Rags | 6. | 17. | 6. |
| 1. | 0. | 0. | 0. | Aluminium | 3. | 5. | 0. |
| | | | 5. | Brass | | 5. | 0. |
| 72. | 5. | 0. | 27. | | £ 707. | 7. | 4. |

NUISANCES: 361 Nuisances were discovered, the majority of which were abated as the result of informal action.

It was found necessary to serve Statutory Notices in 92 cases, of these, 51 were abated without recourse to legal action, and 1 carried out in default by Council workmen.

REGULATED TRADES: Only one "offensive trade" is established in the district, that of tripe boiler. This was operated during the year without nuisance.

FACTORIES: The term Factory includes premises large and small where articles are made, altered or repaired for purpose of gain. There are 36 such premises on the Register, and 82 inspections were made of these premises during the year.

RODENT CONTROL: During the year 206 premises were baited (prebait and poison) against rats. These were mostly small infestations, but included several allotments. 524 dead rats and 29 dead mice were picked up, which indicated that a large number of rats were killed.

The Council's own premises, sewage works and refuse tip were treated at 3 monthly intervals. A sewer test was carried out in September.

HOUSING: The demand for houses shows no sign of abating, and at the time of writing this report we have a waiting list of 849.

During the year under review 66 houses and bungalows were completed by the Local Authority, and 6 houses and bungalows by private enterprise.

The number of post war houses built is as follows:-

| Year | No of houses erected | | |
|--------|----------------------|-----------------------|-------|
| | By Local Authority | By Private Enterprise | Total |
| 1946 | 42 | - | 42 |
| 1947 | 84 | 4 | 88 |
| 1948 | 114 | - | 114 |
| 1949 | 154 | - | 154 |
| 1950 | 12 | 2 | 14 |
| 1951 | 66 | 6 | 72 |
| Totals | 472 | 12 | 484 |

During the year 148 houses were dealt with under Section 9 of the Housing Act, 1936. Of these, 114 were repaired as a result of informal action and Statutory Notices were served in respect of 64; in one of these cases work was carried out in default.

INSPECTION AND SUPERVISION OF FOOD. By the centralisation of Slaughtering by the Ministry of Food, the slaughter of animals for food in your area is confined to pigs slaughtered for private pig keepers, but considerable activity is called for in the inspection of "other foods". During the year the following articles were condemned as unfit for human consumption:-

| | |
|--------------------------|----------|
| Tinned and Untinned Meat | 437 lbs |
| Tomatoes | 246 tins |
